To Our Shareholders:

The fiscal year (53 weeks) ended February 3, 1962 set records in many areas of our business as shown by the Ten Year Summary of Progress on Pages 8 and 9 of this report.

Sales

Net sales, including income from leased departments, increased this year to the record total of $84,664,098 from last year's $65,096,448, an increase of $19,567,650 or 30%. Our Shoppers Fair discount stores and the Polly Perrey stores which we acquired during the year, as noted below, contributed largely to the record sales.

During the year, ten new Shoppers Fair discount stores were opened. Eleven units were closed including two old Shoppers Fair stores which were replaced with larger new units in the same cities. At the close of the year, 162 locations were in operation including the stores and leased departments acquired from the Polly Perrey stores.

Earnings

Net income this year, including a special credit of $127,709, amounted to the record total of $1,604,202 compared with $1,404,379 last year. The average number of shares outstanding during this fiscal year was 722,775 against 685,755 last year. Based on the average number of shares outstanding, the earnings this year including the special credit, were $2.22 per share against $2.04 per share last year.

Dividends

Regular quarterly cash dividends of 30¢ per share were maintained. Dividends paid during this year totaled $850,830 compared with $822,906 last year. This was the seventeenth consecutive year of uninterrupted cash dividends paid on the Common Stock.

Financial Condition

Your Company again strengthened its financial condition substantially, as evidenced by the increase in stockholders' equity from $14,930,984 last year to $16,389,968 this year, as follows:

Stockholders' equity, beginning of year . . .	$14,930,984
EARNINGS:	
Net income and special item	1,604,202
Less: Dividends paid	850,830
Earnings retained in the business	753,372
OTHER ITEMS:	
Acquisition of Polly Perrey stores	635,447
Sales of stock to optionees	70,165
Net increase in stockholders' equity. .	1,458,984
Stockholders' equity, end of year	$16,389,968

Long-term Debt

On January 30, 1962, we took down the balance available to us under the terms of the loan agreement with the Prudential Insurance Company of America, making the total loan $5,500,000. Details of the loan are shown elsewhere in this report.

Expansion

Since the close of the year, three new Shoppers Fair stores were opened, in Canton, Ohio and in Southgate and Lansing, Michigan.

Leases have been concluded and in some instances construction has started for seven additional Shoppers Fair stores, a total of ten discount stores to be opened this year.

During the year, we acquired the business of the Polly Perrey stores, retailers of curtains and domestics, for 27,500 shares of Common Stock. We regard this acquisition as an important addition to our business.

General

We may reasonably expect record earnings again in 1962 based on our plans of substantially higher sales volume and additional cost controls.

We wish to express our thanks to all our employees, both at the home office and in the stores, shareholders, suppliers and customers for their continued cooperation and support in making this another successful year.

NOTE 1 – The mortgages payable bear interest at rates from 4% to 6%, and are payable in installments over a period of years terminating January 1, 1982. The mortgages are collateralized by land and buildings of the unconsolidated real estate subsidiaries and by intercompany and other leases. Mangel Stores Corporation also guarantees certain of the mortgages.

NOTE 2 – The acquisition of all of the subsidiaries of Polly Perrey Stores, Inc. included two real estate subsidiaries; such acquisition was treated for accounting purposes as a pooling of interests. As at January 31, 1961, the combined capital stock and capital surplus accounts of such real estate subsidiaries were $28,500 and $6,500, respectively, and the combined retained earnings account was a debit balance of $1,544. During the current year, indebtedness of $9,684 due to officers by such real estate subsidiaries was cancelled and credited to the capital surplus account.

Notes to Consolidated Financial Statements

As at February 3, 1962

Reference should be made to the previously issued report for the Accountants' Report and notes pertaining to the financial statements as at and for the year (52 weeks) ended January 28, 1961. Such financial statements have not been retroactively revised to include the accounts of the companies acquired during the current year under a pooling of interests. See Note A.

NOTE A – Principles of Consolidation:

The accounts of all subsidiaries are included in the accompanying consolidated financial statements, except those of the real estate subsidiaries. A summary of assets and liabilities of real estate subsidiaries is set forth on page 13.

In July 1961, all the outstanding shares of all of the subsidiaries of Polly Perrey Stores, Inc. (including two real estate subsidiaries) were exchanged for 27,500 shares of Common Stock (from shares held in treasury) of Mangel Stores Corporation. This transaction was treated for accounting purposes as a pooling of interests, and the operations of the acquired subsidiaries are included in the consolidated statement of income and retained earnings from February 1, 1961. The financial statements as at January 28, 1961, and for the year (52 weeks) then ended do not include the accounts of the subsidiaries acquired. The consolidated net income of such subsidiaries (including the two real estate subsidiaries) for the fiscal year ended January 31, 1961, was approximately $180,000.

NOTE B – Furniture, Fixtures, Equipment and Leasehold Improvements:

Based on examinations made by the Internal Revenue Service, the Company extended the lives used for computation of depreciation and amortization of certain furniture, fixtures, equipment and leasehold improvements; such change did not have a material effect on the net income for the year ended February 3, 1962, and the effect on net income for years prior thereto is included in the special item shown in the consolidated statement of income and retained earnings.

NOTE C – 5⅞% Notes Payable – Insurance Company:

The 5⅞% notes are payable $300,000 on January 15, 1964, and $400,000 annually thereafter through January 15, 1977. The note agreement requires, among other things, that the Company maintain consolidated working capital not less than $10,000,000 and restricts the payment of dividends (other than stock dividends), purchase of the Company's capital stock and making of certain investments. As at February 3, 1962, approximately $1,350,000 of consolidated retained earnings was free of these restrictions.

NOTE D – Guarantees of Mortgages Payable of Unconsolidated Real Estate Subsidiaries and Long-term Leases:

Mortgages payable by certain unconsolidated real estate subsidiaries are guaranteed by Mangel Stores Corporation. See page 13.

As at February 3, 1962, the minimum annual rentals on property covered by 116 leases expiring after January 31, 1965, exclusive of intercompany rentals, amounted to approximately $2,828,000. The minimum annual rentals on property covered by 7 leases expiring after January 31, 1965, with unconsolidated subsidiaries amounted to approximately $400,000. Certain lease agreements provide for additional rentals based upon sales or for payment of real estate taxes, insurance, etc.

NOTE E – Stockholders' Equity:

During the fiscal years ended in 1958, 1960 and 1961, the Board of Directors granted to certain officers and employees restricted stock options for the purchase of the Company's Common Stock; as at January 28, 1961, options for 10,665 shares at prices ranging from $15.00 to $28.50 per share were outstanding. During the year ended February 3, 1962, options for 3,710 shares were exercised, and options for 520 shares were terminated. As at February 3, 1962, options for 6,435 shares at prices ranging from $15.00 to $28.50 per share were outstanding. Options are exercisable within five years from dates of grant. The Company intends to issue only Common Stock held in treasury in satisfaction of the aforementioned options.

On March 22, 1962, the Board of Directors approved the granting of restricted stock options for the purchase of 21,425 shares of the Company's Common Stock at $30.20 per share to certain officers and key employees. Options are exercisable within five years from date of grant, and are subject to approval by the Company's stockholders at their next annual meeting.

Consolidated retained earnings includes undistributed earnings of subsidiaries which may be subject to Federal and state income taxes if and when received by the respective parent companies in the form of dividends.

GENERAL:

The accompanying consolidated financial statements are subject to final determination of Federal, state and local taxes.

Mangel Stores Corporation
New York, N. Y.

We have examined the consolidated balance sheet of Mangel Stores Corporation and consolidated subsidiaries as at February 3, 1962, and the related consolidated statements of income and retained earnings and capital surplus for the year (53 weeks) then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In July 1961, the Company acquired all the outstanding shares of all of the subsidiaries of Polly Perrey Stores, Inc. This transaction was treated for accounting purposes as a pooling of interests. Inasmuch as we were not engaged as the auditors of Polly Perrey Stores, Inc. and its subsidiaries as at January 31, 1961, we were not present to observe their physical inventory taking procedures for the year then ended or make physical tests of the quantities thereof; however, we were present at the physical inventory taken as at April 30, 1961, and have applied other auditing tests in connection with the opening inventories of the acquired subsidiaries used in determining cost of sales for the year (53 weeks) ended February 3, 1962.

In our opinion, the accompanying consolidated balance sheet and consolidated statements of income and retained earnings and capital surplus, together with the notes to consolidated financial statements, present fairly the consolidated financial position of Mangel Stores Corporation and consolidated subsidiaries at February 3, 1962, and the consolidated results of their operations for the year (53 weeks) then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year, except that the preceding year does not include the accounts of the companies acquired under a pooling of interests as set forth in Note A.
